Portfolio: shrikrishna25.vercel.app • LinkedIn: shri-krishna-bhat • GitHub: shrikrishna2507 • LeetCode: WFAQa74uiB

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (CGPA 9.05, no backlogs) with hands-on full-stack development experience in React.js, Node.js, MySQL and MongoDB, plus an active AI/ML project applying computer vision. Consistent competitive programmer with **90+** problems solved on LeetCode, spanning arrays, hashing, trees and advanced algorithmic patterns. Fast at picking up new tools, comfortable with Git-based workflows, and confident communicating technical ideas in team settings.

EDUCATION

B.E. in Computer Science & Engineering — Mangalore Institute of Technology & Engineering <i>CGPA: 9.05 (Till 6th Sem, No Backlogs)</i>	2023 – 2027
Pre-University Course (11th & 12th) — Poornaprajna Pre-University College <i>Percentage: 90.16%</i>	2021 – 2023
Secondary School (10th SSLC) — T.A. Pai EMHS, Udupi <i>Percentage: 90.72%</i>	2018 – 2021

COMPETITIVE PROGRAMMING

- LeetCode Profile:** Solved **90** coding problems (44 Easy, 42 Medium, 4 Hard), demonstrating strong problem-solving ability in Arrays, Hash Tables, Sorting, Recursion, and Binary Trees.
- Consistency:** **163** total LeetCode submissions with an active daily coding streak, reinforcing DSA core concepts.

TECHNICAL SKILLS

Programming Languages:	C, Java, Python, JavaScript
Data Structures & Algo:	Arrays, Hashing, Trees, Sorting, Recursion
Web Development:	HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js
Databases:	MySQL, MongoDB, DBMS Concepts
ML & AI:	Python, OpenCV, Computer Vision (in progress)
Developer Tools:	Git, GitHub, VS Code
Soft Skills:	Problem Solving, Teamwork, Technical Communication, Adaptability

PROJECTS

Brand-Specific Apparel Fit Prediction & Virtual Try-On ML system predicting best-fit apparel from brand size data, with a computer-vision virtual try-on feature. Tech Stack: Python, Machine Learning, Computer Vision, OpenCV	<i>Team Project In Progress</i>
GardenFresh — Hyperlocal Farm-to-Home Marketplace Full-stack marketplace connecting local growers with customers, built with a React frontend and Node.js/MongoDB backend. Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript	<i>Individual Project In Progress</i>
MITE Flix — Movie Rating & Recommendation Platform Database-driven platform with full CRUD functionality, role-based JWT auth, and a recommendation engine based on user ratings. Tech Stack: MySQL, Express.js, Node.js, HTML, CSS, JavaScript	<i>Team Project Dec 2024</i>
VehicleWale — Multi-Service Vehicle Platform Centralized web platform integrating car, bike, bus and lorry services; built the frontend and JavaScript-based interaction logic. Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Git	<i>Team Project Apr 2024</i>
Smart Irrigation System Using Soil Moisture Sensor Automated IoT-based irrigation system using Arduino and soil moisture sensors to optimize water usage dynamically. Tech Stack: Arduino IDE, Embedded C, LCD Display	<i>Team Project Mar 2024</i>
Tic-Tac-Toe Game Engine Console-based two-player game engine in Python implementing core state evaluation and win/draw detection.	<i>Individual Project 2024</i>

CERTIFICATIONS & WORKSHOPS

- NPTEL Certification:** Data Mining (Elite Status - 73%) (2025)
- Infosys Springboard:** Cloud Computing Fundamentals & Intro to Cloud Computing (2025)
- Infosys Springboard:** Introduction to R Programming & Statistics of R Programming (2025)
- UiPath Diploma:** RPA Developer Foundation (v2021.10) (2024)
- Technical Workshop:** Developing Data-Driven Product Backend with Java, Spring & PostgreSQL (2024)

ACHIEVEMENTS & CO-CURRICULARS

- Rajya Puraskar Awardee (Governor's Scouting Award):** Represented Karnataka at National Level Scouting Competition (1st Place).
- Tabla Player:** Completed Junior Grade Examination with Distinction (Udupi District Rank 9th).
- Hindi Prachar Sabha:** Completed Prathama (First Class) and Madhyama examinations.
